**[NAESCO to Host Technology and Financing Workshop in Louisville, Kentucky on June 2<sup>nd</sup>](#)**

The National Association of Energy Service Companies (NAESCO) will host its 2016 Summer Workshop on June 2<sup>nd</sup> in Louisville, Kentucky at the [Louisville Marriott Downtown](#). The dual track Workshop will focus on innovative technologies and new financing opportunities as part of Energy Savings Performance Contracts (ESPCs) in energy efficiency retrofit projects common among universities, military facilities, hospitals and municipalities as well as commercial and industrial facilities. There will also be a *Regional Report on State Energy Efficiency Initiatives* featuring state officials from Kentucky, Georgia, and the Midwest Energy Efficiency Alliance. See complete [agenda](#).

NAESCO, recently approved by the American Institutes of Architects, (AIA) as a provider, will be offering Continuing Education Credits for two Workshop sessions: *The Financing Community Takes Another Look at M&V Requirements* and *Non-Energy Benefits of LEDs: Enhancing Wellness and Productivity*.

“We are delighted to have such a wealth of knowledge and expertise represented by the speakers at our upcoming Technology and Financing Workshop in Louisville. We are confident the attendees will gain greater knowledge and insight into market trends and practices not only in Kentucky and surrounding states, but throughout the United States” said Terry E. Singer, Executive Director of NAESCO.

## ABOUT NAESCO

*The **National Association of Energy Service Companies (NAESCO)** celebrates 33 years of advancing the energy efficiency industry. NAESCO is the leading national trade organization representing and promoting the energy efficiency industry in the energy marketplace, the media, and the government both at the state and federal level. NAESCO's active membership consists of key energy efficiency industry leaders representing ESCOs, energy efficiency and energy equipment manufacturers, suppliers, and subcontractors. NAESCO also welcomes as members, engineers, consultants, financial/legal/insurance providers, government agencies, and thought leaders from the energy NGO and academic communities.*

***Energy Service Companies** contract with private and public sector energy users to provide cost-effective energy efficiency retrofits across a wide spectrum of client facilities, from college campuses to water treatment plants. Effectively utilizing a performance-based contract business model, ESCOs have implemented over \$50 billion in comprehensive energy efficiency retrofit projects over the last three decades.*
